

Steps to Success Recreational Program

Achieve Beyond is a division of Bilinguals Inc. which provides programs approved by the New York State Department of Health, the Nassau & Suffolk County Department of Health Services and the New York City Department of Health and Mental Hygiene. Our agency provides educational and therapeutic services to children with developmental delays and various disabilities.

Achieve Beyond is currently offering a recreational program for children to attend during extended school breaks. We acknowledge the difficulties of raising a child with developmental delays; therefore we know that school breaks can be particularly challenging in finding ways to occupy your child's time.

Steps to Success is a two hour, private pay program designed for children ages 3-5 and 6-9 year old children. During an intake process, you and a staff member will discuss strengths, needs and goals of your child. Based on this information and your child's age they will be placed in a group that will best address his/her needs.

The focus of our program is to provide an accommodating environment for children to experience successful social interactions. Utilizing theme based teaching methods, structured play activities and Applied Behavior Analysis (ABA), experienced Board Certified Behavior Analysts (BCBA), Clinical Supervisors and Special Education Teachers will give all students the opportunity to engage in social situations, utilize communication skills and most importantly have some fun!

This is a private pay program and does not require approval from your school districts.
